"INDUSTRY LEADING TECHNOLOGY"

With eZportal, we use IBM award-winning WebSphere Portal technology to create your storefront, help you populate it with your company's content and information, launch it and manage it 24x7x365.

Based on your business requirements, you have infinite options to create your online portal for employees, customers, business partners – anyone you work with who would benefit from a streamlined, organized, information portal solution. Relying on the industry's leading portal technology means that you'll have a stable, trustworthy platform to store your content and improve communications across all of your channels.

FEATURES AT A GLANCE

PRE-BUILT TEMPLATES: A rich selection of pre-built themes and skins to enable a quick launch.

INDUSTRY-SPECIFIC PAGES: Based on your industry, we can deploy Portal pages that are specific to your company (ex. Product Information for B2B, Supplier pages for Manufacturing).

WEB 2.0 ENABLED: Includes Collaboration tools such as blogs, wikis and forums to enable collaboration.

DOCUMENT MANAGEMENT: Uses the world-class Lotus Quickr platform to manage documents and assets. Lotus Quickr features organized publishing streams for authors and editors, and flexible publication scheduling

INTEGRATED SEARCH: At launch, your portal search tool is configured and ready to search for content and documents.

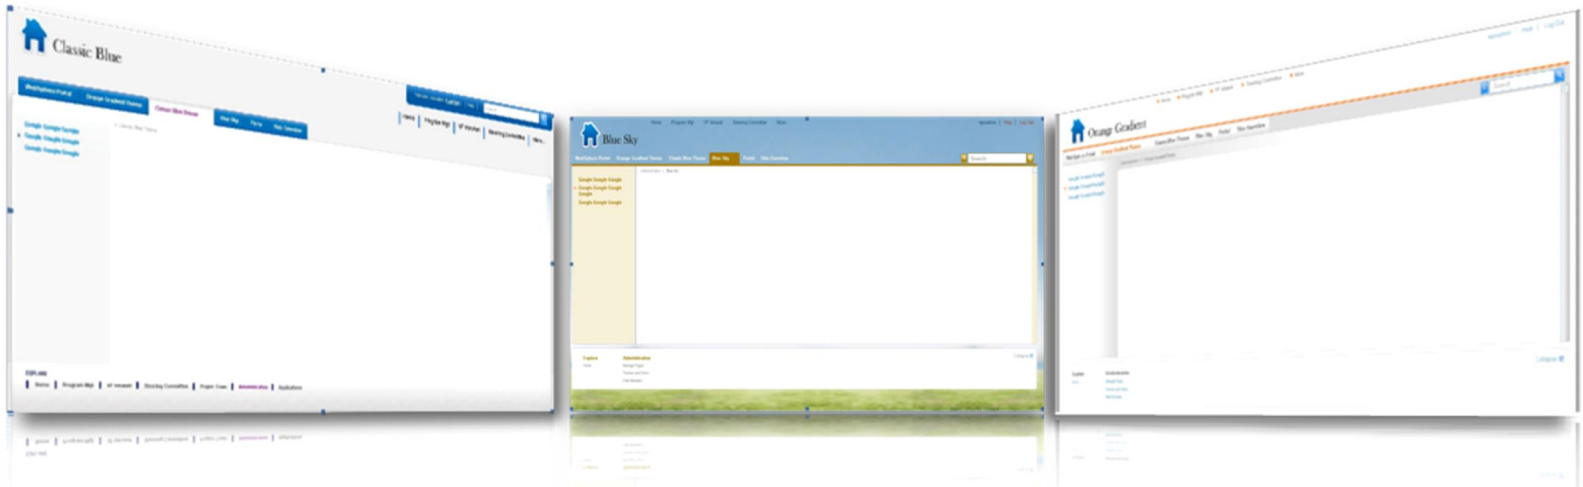

OUR EXPERIENCE ENSURES SUCCESS AND MEASURABLE BUSINESS VALUE

Clients like *Tri-West, LTD* has saved up to **three-quarters of a million dollars annually** through the implementation of WebSphere Portal. This streamlined, cost-effective solution gives them the expertise that is needed for day-to-day web content and documents update capabilities.

Partner

eZportal Provides a Collection of Theme and Skin Designs for Less

“ We have included in the package a number of good-looking theme and skins you can leverage out-of-the-box. ”

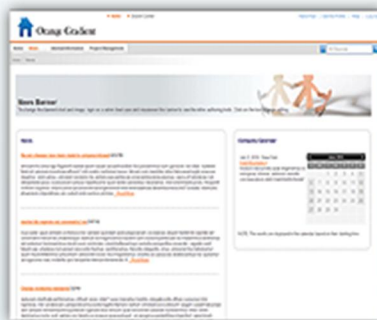

BEST PRACTICES

Best practices recommend to start with a simple set of pages that are fundamental to any business and then add on specific pages tailored to your industry. We have a number of pages designed for Manufacturing, Distribution, Retail, and Insurance that you can leverage.

Homepage

Display critical information such as announcements, latest news, internal/external applications as shortcuts for quick access

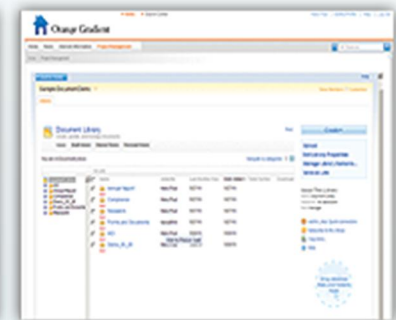

News

Keep employees updated with latest news promoting communication within the organization

Intranet Information

Store organization-specific content such as product information, employee handbook, and more

Document Management

Centralize and organize all types of documents into folders to promote sharing and get your storage requirements under control
